

Nail Brush

Series 6440

Hygienic Design

Angled and rounded surfaces improve brush cleanability

Hanging Hole

Drop-shaped hole is large and easy to clean

Stiff and Angled

Bristles are effective at reaching into crevices

Ergonomic Shape

Increased block surface area for a better, more comfortable grip

This is a nail brush that is designed for personal hygiene, but is also well-suited for a variety of purposes requiring a small brush that can reach into tight spaces for scrubbing.

Nail Brush

6440

The bristles on this nail brush are stiff enough for effective cleaning, but fine enough to reach under the nail area without damaging skin. Brush can be affixed to the wash area with a stainless steel cable.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
