EXCELON®
by Thermo

Excelon R-4000 Schedule 40 pipe is a clear and impact resistant superior PVC manufactured by low stress extrusion. Ideal for applications requiring control of aggressive high-purity chemicals, quick visual identification of primary tubing, monitoring possible blockage areas and easy leak detection is crucial.

- Provides improved safety to the workplace.
- Increases environmental protection from hazardous substances.
- Assists in early detection and immediate correction saving hours of production down time.
- Protects and prevents damage to equipment and down time of production facility from system leaks.

R-4000 - Clear Schedule 40 Pipe
