

Revolutionary Disposable Safety Cutter

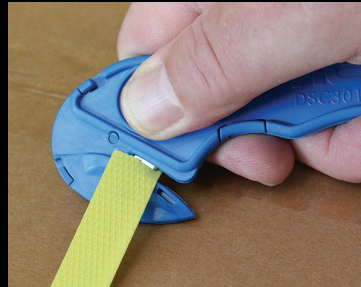

DSC-301 Disposable Safety Cutter

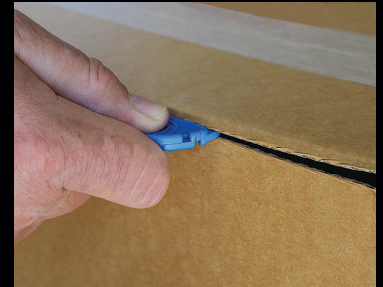

The guide angle and sharp rotating blade maintain optimum position for cutting shrink wrap for boxes and pallets. Place thumb on side grip to firmly guide your cut downward.

Use the blade-less tape splitter on the bottom of the DSC-301 to safely and effortlessly cut tape between box flaps. Just pierce through the seal and pull in the direction of cut.

Plastic banding and strapping are easy to cut. Hold the DSC-301 as shown above and pull to cut.

Cut open boxes quick and easy. Hold the DSC-301 as shown above and pull to cut.

- **Eliminates loose blades from the workplace**
- **Safely cuts shrink wrap, plastic strapping, tape and boxes**
- **Long-lasting rotating stainless steel blade with 16 times the cutting surface of other similar cutters**
- **Easy to use**
- **Economical**
