

Fixed Head Squeegee

Series 7755

Replaceable Blade Cassette

With finger tabs, easily replace worn out blades to extend usability

Foam Double Blades

Foam blades are very effective at moving both water and food debris

This is a floor squeegee used for drying surfaces after a sanitizing process.

Fixed Head Squeegee

7755

The neoprene rubber blades on this squeegee make it the most effective squeegee in the Vikan range. It is excellent on all types of floors, as the soft rubber reaches into and cleans all spaces on the floor, such as grouting between tiles. The cartridge system blades can be removed for easy cleaning and replaced when worn out, making the model a very economical option. Replacement squeegee blades 77755 or 77759. May be used with any European-thread handle.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
