

Ø5.0" Pipe Brush

Series 7035

Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

Medium Bristles

Bristles are strong enough to scrub away tough messes and surround the head of the brush to get a more complete clean

The medium bristles on this brush make it useful to clean areas like small tanks and containers. It is often used to clean mixers for blending ingredients, and fits well into meat mincer barrels. Requires a European-thread handle, and may be attached to any length handle to fit the user's needs.

Ø5.0" Pipe Brush

7035

Our large Pipe Brush can be used to clean long pipes or high walls and tanks. The medium bristles can be used dry to sweep off tough dirt, or the brush can be combined with water and a cleaning agent for scrubbing.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.
