Description: A Black low profile polyethylene sump with a ribbed bottom to keep part or equipment elevated above small spills.

Application: For storage/ spill containment for leaky parts or equipment.

Product Features: The Ultra-Utility Trays keep messy drips and spill off of warehouse and factory floors.

- Heavy-duty polyethylene construction – will not rust or corrode.
- Ribbed bottom keeps cans, pails and other containers elevated above small spills or leaks.
- Place under trucks or other large vehicles to capture leaks/ spills from engines, hydraulics, or other lubricated parts.
- Nestable for easy storage when not in use.
- Available in six sizes for a variety of spill containment and maintenance applications.

Composition: 100% polyethylene with UV inhibitors.

Helps you comply with: N/A

Additional Specifications: N/A
