

Factsheet

HEAVY DUTY BROOMS TOUGH GUY™ BROOMS

Superior brooms for commercial/industrial facility maintenance.

Tough Guy™ brooms are superior for contractor and commercial use because of the proprietary bracing systems used.

TOUGH GUY Brooms

These brooms are used to remove unwanted dirt and debris from hard surfaces in residential and commercial settings. They can also be used to groom and maintain all types of sports fields and courts.

3PCA6

12" Flat Steel Wire Broom with 60" ergonomic red powder-coated aluminum handle. Excellent for aggressive scrubbing and cleaning. Bent handle maximizes bristle and broom head contact with any surface for more efficient sweeping. Unique proprietary gusset bracing system sets these brooms apart and provides lasting strength and durability.

3PCA7

16" Round Steel Wire Broom with 60" ergonomic red powder-coated aluminum handle. Excellent for aggressive scrubbing and cleaning. Bent handle maximizes bristle and broom head contact with any surface for more efficient sweeping. Unique proprietary gusset bracing system sets these brooms apart and provides lasting strength and durability.

3PCA8

24" General Purpose Broom with 60" ergonomic red powder-coated aluminum handle. The durable polypropylene bristles are excellent for general cleaning. The bent handle maximizes bristle and broom head contact with any surface for more efficient sweeping. Has the unique proprietary gusset bracing system for lasting strength and durability. A preferred tool for sidewalks, parking lots, warehouses and sports fields.

3PCA9

28" Maximum Duty Broom with 3 bristle rows and 60" ergonomic red powder-coated aluminum handle with wrap-around bracing. The 28" aluminum frame and 3 rows of bristles make this broom the most durable and long lasting on the market. This broom has a scraping edge. The bent handle maximizes bristle and broom head contact with any surface for more efficient sweeping. A preferred tool for sidewalks, parking lots, warehouses, tennis courts and sports fields.
