

PRODUCT SPECIFICATION REPORT

White Lithium Grease is a multipurpose, aerosol lubricant for all metal to metal applications. It can be used for any type of mechanical moving part and as a corrosion inhibitor on metal surfaces.

WHITE LITHIUM GREASE

Multi-Purpose Aerosol Lubricant

PROD.#3317

FEATURES/BENEFITS:

Lubricates and Reduces Friction	Contains PTFE which gives this product superior lubricity in reducing friction between surfaces
Gelling Set-Up	Quick gelling set-up helps the grease to stay put and resist wash out or throw off; will not gum or cake
Inhibits Corrosion	The grease provides a coating which will inhibit rust and corrosion and provide protection in high humidity conditions
Non-Staining	White Lithium Grease does not contain dyes and is non-staining; for use in areas where color can not bleed into adjoining materials.

NOTE: Product does not contain chlorinated solvents

APPLICATIONS:

White Lithium Grease is recommended for all types of automotive, marine, truck, farm machinery, and heavy construction equipment - use to lubricate or protect hinges, springs, cables, bolts, latches, bearings, shackles, rollers, tools, locks and more. Particularly useful to industries manufacturing or maintaining aircraft, farm machinery, boats, new and used cars, automotive parts, and heavy construction equipment.

COMPANION PRODUCTS:

Red Slide, Zep 45, Brake Wash, Big Orange, Zep 50, Morado, Formula 50, Soy Response (GreenLink), Dyna 143, Restore, Flash, Zep 40, Reach, Shell Shock, Cherry Bomb, Ultrawipes

SPECIFICATIONS:

Physical Form	Gel (Aerosol)
Color	White
Odor	Solvent
Flammability	Extremely Flammable (CSMA)
Specific Gravity	0.77
Shelf Life	1 Year
D.O.T. Shipping Label	ORM-D

PACKAGING:

16 oz Aerosol—Net Weight: 11 oz (312 g)

Cases—12 Aerosols
