

PRODUCT SPECIFICATION REPORT

RECIRCULATING DETERGENT™

Low-Foam Cleaner for Aluminum and Other Soft Metals

DESCRIPTION

Versatile, powdered, alkaline detergent for use in recirculating spray washers. Can also be used in hot vats as an immersion cleaner. Contains buffered alkaline builders and special low-foaming detergents and emulsifiers.

FEATURES

- Cuts "automotive" soils
- Non-foaming
- Buffered alkalies
- Biodegradable

BENEFITS

- Rapidly removes heavy grease, grime, dirt, and other automotive-type soils in both spray washers and hot vats.
- Specially selected detergents and emulsifiers actually defoam at 140°F (61°C). No need for additional defoamers.
- Will not etch or corrode aluminum when used as directed. Also excellent for use on iron, steel, and other metals.
- Contains only biodegradable detergents and emulsifiers. Non-caustic formula requires little, if any, neutralization prior to discharge.

NOTE: May darken magnesium alloys, particularly at high concentrations or after prolonged exposures.

APPLICATIONS

Use to clean transmission cases and parts, starters, alternators, engine blocks, heads, parts, carburetors, brake shoes, clutch plates and pressure units. Particularly useful in:

Automotive Parts Stores
Automotive Repair Shops
Motorcycle Dealers

New & Used Car Dealers
Passenger Car Rental & Leasing
Service Stations
Truck Rental & Leasing w/i Drivers

COMPANION PRODUCTS
