

Calbrite™

Stainless Steel Conduit Systems

Petrochemical

Corrosion-resistant

Easy to install

Durable

Lowest total cost
of ownership

A division of
CALPIPE INDUSTRIES™
Incorporated

Think Stainless Think Calbrite

Over 2,800 Products Manufactured in the USA

Why Calbrite?

- ✓ Three USA manufacturing and distribution centers
- ✓ Type 304 and 316
- ✓ ARRA compliant products
- ✓ Reliable service
- ✓ Shortest lead times
- ✓ Competitive prices
- ✓ Custom or unique products
- ✓ Quality assurance program complies with UL[®], cUL[®], ANSI and NEMA standards

STAINLESS STEEL CONDUIT

Stainless Steel Rigid Conduit 1/2" - 6"
 Stainless Steel EMT Conduit 1/2" - 2"
 Stainless Steel IMC 1/2" - 2"
 Stainless Steel Flex Conduit 1/2" - 2"
 Bare & Coated
 Flex Coils 25'

STAINLESS STEEL CONDUIT BODIES

Body Style Form 8:
 C, LB, LL, LR, TB, T, X

Size Range: 1/2" - 4"

STAINLESS STEEL HUBS & COUPLINGS

Hub (Line Terminator) 1/2" - 4"
 Grounding Hub 1/2" - 4"
 Conduit Coupling 1/2" - 6"
 3 Piece Coupling 1/2" - 4"

STAINLESS STEEL NIPPLES & ELBOWS

Nipples - Standard & Special Lengths
 Elbows - Standard & Special Radius
 Size Range:
 SS Rigid 1/2" - 6"
 SS EMT 1/2" - 2"

STAINLESS STEEL DEVICE BOXES

Box Style:
 FD, FDC Single, FDC Double, FDT, FS
 FST & FSX Single, FSCC Single, FDX
 FDCC

STAINLESS STEEL IN - USE COVERS

Stainless Steel In-Use weather-proof covers

CHANNEL & STRUT CLAMPS

Slotted Strut 7/8", 1-5/8", 3-1/4"
 Length 10'

Food grade channel now available

FITTINGS & ACCESSORIES

Clamps, Brackets, Washers, Nuts, U-Bolts, Locknuts, Cover & Gasket Kits, Straps, Screws, Threaded & Grounding Rods, Rod Couplings, Conduit Caps, Box Connectors, Bushings, Pulling Elbows, Wedge & Drop-In Anchors, Clamp Backs & Spacers, Compression & Set Screw Connectors, Plugs, Ex. Proof Fittings, Cord Grips, Flex Connectors, Fender Washers, Escutcheon Plates, Floor Flanges

Critical for the Petrochemical Industry

Durable. Corrosion resistant.

- ✓ Stainless steel resists corrosion in aqueous, gaseous and high-temperature environments, maintains its mechanical properties in all temperatures and its long-term value attribute allows for substantial cost savings.
- ✓ In these applications, use of acidic, toxic and flammable chemical combinations can rapidly deteriorate traditional conduit systems.
- ✓ Stainless steel is one of the only materials that can retain its structure between freezing and melting points.
- ✓ Stainless steel's corrosion-resistance, weld ability, strength, ductility, fabrication versatility and composition stability can significantly guard against product contamination.
- ✓ Calbrite's stainless conduit and fittings ensure that the surfaces of the conduit and fittings are smooth, easy to maintain and clean, to minimize microbial contamination, reduce corrosion and prevent the adherence of particulates to the surfaces of the equipment and product.

The negative effects of corrosion costs industries billions of dollars every year in unscheduled plant or pipeline shutdowns, inefficient or lost production, high maintenance repair costs or imposed fines. Calbrite provides the solutions before they threaten your business.

For over 15 years,
the top petrochemical
companies all over the
world have turned to
Calbrite for their
stainless steel
conduit systems.

**114% more SKU's than
our competition**

**175% more UL Listed
products than our
competition**

**250% more Made in the
USA products than our
competition**

**95% of all orders are
shipped in 1-2 business days!**
