

Certified Anti-Vibration Gloves

Berry Amendment Compliant Vibration Protection Utilizing Patented Air Glove® Technology Reduce Exposure to Hand-Arm Vibration

These Gloves Meet Anti-Vibration Glove Standard
ANSI S2.73-2002 (R 2007) / ISO 10819:1996

- **IMPACTO Air Gloves use Air Bladder technology in the palm, fingers & thumb**
- **Air Gloves conform to the flex-lines of the hand to maintain tool control**
- **Featured Air Gloves are Berry Amendment Compliant, made in USA**
- **Multiple air cells make the Air Glove less susceptible to failure**
- **Durable urethane Air bladder construction will not degenerate**
- **The Air bladder ensures consistent protection where padded**
- **Individual air chambers offer superior durability**
- **Air bladder won't bottom out**

Use of certified anti-vibration gloves is part of a program for exposure reduction which should include: Selection of low vibration power hand tools; Use of processes which minimize exposures; Good work practices, training and; Appropriate protective equipment, particularly certified anti-vibration gloves meeting anti-vibration glove standards EN ISO 10819 and ANSI S2.73-2002 (R 2007) / ISO 10819:1996. Other protection may also be required.
