# **PIG® HazMat Mat Roll**

#MAT325 - Light-weight • 30" x 300'

Lasts 2x longer than ordinary mats for fewer change-outs. Specially made for acids, bases, corrosives and chemical spills.

- Absorbs the widest range of acids, bases, corrosives, chemicals and unknown liquids - even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant mat won't degrade or cause a dangerous reaction upon contact with corrosive spills
- Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup
- Highly absorbent, fine-fiber construction won't leave behind liquids or fiber residue
- Pink color is easily distinguishable to assure workers use the correct mat during a spill emergency
- Flame-resistant material won't burn immediately like cellulose mats; melts when exposed to high heat while on the job
- Rolls are ideal for covering large areas and soaking up spills
- Light-weight mat is ideal for small cleanups and light-duty tasks

Always in stock. Ships within 24 hours.
