

# OIL ONLY

CLEANING UP SPILLS ON LAND OR WATER

## Oil Only Absorbency

Specialized for oil and other petroleum-based spills, oil only pads and rolls will not absorb water and will float indefinitely. These absorbents are unaffected by temperature and impervious to rot and mildew. Ideal for outside use, Brady's oil only SPC products are equally effective in soaking up petroleum-based solvents and paints, vegetable oils and other non-water soluble oil-based fluids.

## The Technology:

The technology (construction layers, weave and loft) behind each of the oil only products helps determine the strength and absorbency of each absorbent. This information along with the product's characteristics (grade, perforations, etc.) are what helps you decide which absorbent is best for your application.

### Common Liquids Absorbed:

- Drilling and cutting fluids
- Hydraulic and brake fluids
- Engine oils
- Transmission fluids
- Lubricants
- Gasoline, diesel and aircraft fuels
- Cooking oils
- Oil-based paints and solvents
- And other oils and petroleum-based fluids

## Oil Only Absorbent Family:

All of these pads and rolls start with a highly absorbent polypropylene core - the difference is what happens from there. Features such as durability, absorbency grades and coverstock give you versatile absorbent options for your specific application.

	Applications	Durability	Linting	Cost	Absorbency Grades	Construction
<b>SXT® Oil Absorbent Pads &amp; Rolls</b>	Quality absorbent for wiping tools or component parts that require high durability	333	Low Linting	\$\$\$	Heavy Weight	3-ply (SMS) Meltblown Polypropylene, spunbound coverstock on both sides
<b>Oil Plus Absorbent Pads &amp; Rolls</b>	Durable for general industrial applications such as wiping, drips and leaks	33	Medium Linting	\$\$\$	Heavy, Medium & Light Weight	3-ply (MMM) Meltblown Polypropylene
<b>SPC® Oil Absorbent Pads &amp; Rolls</b>	Cost effective and ideal for industrial applications or marine spills	33	Medium Linting	\$\$	Heavy & Medium Weight	Single-ply Meltblown Polypropylene
<b>ENV® Oil Absorbent Pads &amp; Rolls</b>	Contractor grade for emergency marine spills and maximum absorbency	33	High Linting	\$	Heavy & Medium Weight	Single-ply Meltblown Polypropylene
<b>Basic Oil Only Absorbent Pads &amp; Rolls</b>	Value absorbent for general purpose wiping, drips or leaks and marine applications	3	High Linting	\$	Heavy & Light Weight	Single-ply Meltblown Polypropylene
<b>Static Resistant Absorbent Pads &amp; Rolls</b>	For wherever static electricity is a concern, around fuel or other ignitable fumes	33	High Linting	\$\$\$	Heavy & Medium Weight	Single-ply Meltblown Polypropylene
