Factsheet

100% POLYESTER DOUBLE-KNIT CLEANROOM WIPER

Suitable for use in all cleanroom environments Class 10 and above.

30N527

Tough Guy Polyester Double-Knit Cleanroom Wipes are comprised of 100% ultra-pure continuous filament polyester yarns. The double-knit polyester fabric creates a super soft hand and more surface area for increased absorption. The double-knit material captures more particles within the fibers than traditional polyester knit wipes. These wipes are laundered and packed in a Class 10 cleanroom laundry.

Highly absorbent, with excellent wiping efficiency and abrasion resistance, Tough Guy Polyester Double-Knit Wipes are laser cut to reduce particles and feature sealed edges for applications where scratching is a concern.

These wipes are designed for extra absorbency and wiping efficiency. Suitable for use in all cleanroom environments Class 10 and above.

100% POLYESTER DOUBLE-KNIT CLEANROOM WIPER

ITEM#	Description	Packaging
30N527	9"x9" (23CMx23CM), Laser sealed edges, Cleanroom Class: 10-100 compatible 140 GSM Weight	150 wipers/bag, 10 inner bags/case

Applications/Features

- 100% Polyester Double Knit wipers are designed for use in the most sensitive environments
- Very soft hand
- Ideal for use on surfaces that are prone to scratching
- Tight, stable fabric construction makes for less chance of catching on a surface and breaking yarn filaments
- Can be used with bleached based cleaners
- Cleanroom Class 10-100 compatible
